

INDEX METHODOLOGY

NASDAQ OMX BALTIC 10TM INDEX

OMXB10TM

INDEX DESCRIPTION

The OMX Baltic 10 Index measures the performance of a selection of the most traded securities listed on AB Nasdaq Vilnius, Nasdaq Riga, AS, and Nasdaq Tallinn AS.

SECURITY ELIGIBILITY CRITERIA

To qualify for index inclusion, securities must meet the following Security Eligibility Criteria, which are applied as of the Reconstitution reference date.

Security universe

A security must be included in the OMX Baltic All-ShareTM Index (OMXBPITM). Please refer to that methodology for further information.

Seasoning

To be eligible for initial index inclusion, a security must have been listed and available for trading on a Nasdaq Baltic Exchange (AB Nasdaq Vilnius, Nasdaq Riga, AS, or Nasdaq Tallinn AS) for at least three full calendar months, not including the month of initial listing. The seasoning eligibility is determined as of the Reconstitution reference date and includes that month.

Any security that is already a member of the Index, including those added as the result of a spin-off event, will be exempt from the seasoning requirement.

Other eligibility criteria

Companies that have filed for bankruptcy, or equivalent protection from creditors, will not be considered for initial inclusion in the Index.

A company that has entered into a definitive agreement or other arrangement that is expected to make it ineligible will not be considered for initial inclusion in the Index. Such agreements and arrangements include, but are not limited to:

- An agreement to be purchased by another entity or to become privately owned.
- A plan to delist or to transfer to an ineligible exchange.
- A plan to reorganize as an ineligible security type.
- A decision to liquidate or otherwise permanently cease operations.

Generally, a security already in the Index as of the Reconstitution reference date but expected to become ineligible soon after the Reconstitution effective date due to the corporate actions described above will also be excluded from consideration.

CONSTITUENT SELECTION

Constituent selection process

An Index Reconstitution is conducted semiannually based on the Reconstitution reference date.

All securities that meet the *Security Eligibility Criteria* are ranked by highest Nasdaq official daily median turnover based on auto-match trades in Euro (EUR) over the trailing six calendar months, and are selected for index inclusion based on the following order of criteria:

1. Securities that fail to trade on six or more days during the trailing six calendar months, while the exchange on which they are listed remained open, are excluded.
2. The top eight ranked securities are selected.
3. Securities that are already members of the Index and are ranked within the top 12 are also selected, unless already included under the second criterion. These are added in highest rank order, subject to a maximum of 10 total Index constituents.
4. If fewer than 10 securities are selected based on the first three criteria, the remaining positions are filled, in highest rank order, by securities ranked within the top 12 that are not already members of the Index.

CONSTITUENT WEIGHTING

Constituent weighting scheme

The Index is a modified free float market capitalization-weighted index.

Constituent weighting process

An Index Rebalance is conducted semiannually based on the Rebalance reference date.

Index Securities' initial weights are determined by dividing each Index Security's free float market capitalization by the aggregate free float market capitalization of all Index Securities. Issuer weights are the aggregated weights of the issuers' respective Index Securities. Initial index weights are adjusted to meet the following constraint:

- No issuer weight may exceed 15% of the Index.

For additional information about index weighting, see **Nasdaq Index Weight Adjustment Guidelines**.

INDEX CALENDAR

Reconstitution & Rebalancing schedule

Reconstitution Frequency	Semiannually
Rebalance Frequency	Semiannually
Reconstitution Reference Dates	Last trading day of April and October, respectively
Reconstitution Announcement Dates	After the close on the sixth trading day prior to the Reconstitution effective date
Reconstitution Effective Dates	At market open on the first trading day in June and December, respectively
Rebalance Reference Dates	• For Total Shares Outstanding (“TSO”) and Free Float Factor, the last trading day of April and October, respectively • For Last Sale Price (“LSP”), the last trading day prior to the Rebalance effective date
Rebalance Announcement Dates	Same as the Reconstitution announcement dates
Rebalance Effective Dates	Same as the Reconstitution effective dates

Holiday schedules

The Indexes are calculated Monday through Friday, except on days when all the Nasdaq Baltic Exchanges (AB Nasdaq Vilnius, Nasdaq Riga, AS, and Nasdaq Tallinn AS) are closed.

Index calculation and dissemination schedule

The Index is calculated during the trading day and is disseminated once per second from 10:00:10 to 16:05:00 local time (Eastern European Time or Eastern European Summer Time, dependent on the month of the year).

INDEX MAINTENANCE

Deletion policy

If at any time other than an Index Reconstitution, Nasdaq determines that an Index Security has or will undergo a fundamental alteration that would make it ineligible for Index inclusion, the Index Security is removed from the Index as soon as practicable as noted in the “Mergers & Acquisitions (M&A)” section of the **Corporate Actions and Events Manual—Nordics, Baltics, & SmartBeta Equities**.

Such fundamental alterations include, but are not limited to, a listing switch to an ineligible exchange, acquisition of more than 90% or 95% of outstanding shares depending on the exchange on which a security is listed, merger, or other major corporate event that would otherwise adversely affect the integrity of the Index.

On the Effective Date of the deletion, the Index Security is removed at its closing price. For more information on the handling of Bankrupt securities please refer to the “Bankruptcy” section of the **Corporate Actions and Events Manual—Nordics, Baltics, & SmartBeta Equities**.

Replacement policy

Removed securities are not replaced except, under certain conditions, when the removed Index Security is involved in a merger. Please refer to the “Mergers & Acquisitions (M&A)” section of the **Corporate Actions and Events Manual – Nordics, Baltics, & SmartBeta Equities** for more information.

Addition policy

Securities are not added in between Index Reconstitutions unless otherwise noted under the Replacement policy section.

Corporate actions

Information on corporate action and event handling can be found in the **Corporate Actions and Events Manual – Nordics, Baltics, & SmartBeta Equities**.

Unless otherwise noted and where possible, corporate actions are announced approximately two (2) days in advance.

The Index follows a "Market Cap Corporate Action Method for Indexes that Review Index Shares on a Periodic Basis".

Index share adjustments

Please refer to the “Index Share Adjustments” section of the **Corporate Actions and Events Manual – Nordics, Baltics, & SmartBeta Equities** for further information.

ADDITIONAL INFORMATION

Announcements

Nasdaq announces Index-related information via the Nasdaq Global Index Watch (GIW) website at <http://indexes.nasdaqomx.com>.

For more information on the general Index Announcement procedures, please refer to the **Nasdaq Index Methodology Guide**.

Unexpected market closures

For information on Unexpected Market Closures, please refer to the **Nasdaq Index Methodology Guide**.

Calculation types

For information on the Index calculation types as well as the mathematical approach used to calculate the Index(es), please refer to the **Calculation Manual – Equities & Commodities**.

Recalculation and restatement policy

For information on the Recalculation and Restatement Policy, please refer to the **Nasdaq Index Recalculation Policy**.

Data sources

For information on data sources, please refer to the **Nasdaq Index Methodology Guide**.

Contact information

For any questions regarding an Index, please contact the Nasdaq Index Client Services team at indexservices@nasdaq.com.

Index dissemination

Index values and weightings information are available through Nasdaq Global Index Watch (GIW) website at <https://indexes.nasdaqomx.com/> as well as the Nasdaq Global Index FlexFile Delivery Service (GIFFD) and Global Index Dissemination Services (GIDS). Similar to the GIDS offerings, Genium Consolidated Feed (GCF) provides real-time Index values and weightings for the Nordic Indexes.

For more detailed information regarding Index Dissemination, see the **Nasdaq Index Methodology Guide**.

Website

For further information, please refer to Nasdaq GIW website at <https://indexes.nasdaqomx.com/>.

FTP and dissemination service

Index values and weightings are available via FTP on the Nasdaq Global Indexes FlexFile Delivery Service (GIFFD). Index values are available via Nasdaq’s Global Index Dissemination Services (GIDS).

GOVERNANCE

All Nasdaq Indexes are managed by the governance committee structure and have transparent governance, oversight, and accountability procedures for the Index determination process. For further details on the Index Methodology and Governance overlay, refer to the **Nasdaq Index Methodology Guide**.

GLOSSARY OF TERMS AS USED IN THIS DOCUMENT

For the glossary of key terms, please refer to the **Nasdaq Index Methodology Guide**.
